Diamond Brite and the **Aalco** treadplate range

Introducing
Diamond Brite
aluminium treadplate
from **Aalco**

Diamond Brite

Featuring a distinctive 'propeller' pattern, this highly reflective, economical product, is widely used in decorative, cosmetic and architectural applications, as well as the road transport and marine sector. Diamond Brite is made from aluminium alloy 3003 and has good forming, drilling and welding capabilities.

Available in the following sheet sizes:

3000mm x 1500mm x 1.5mm
3000mm x 1500mm x 3.0mm

Properties of the Aalco treadplate range

- Decorative finish
- Hard wearing
- Non-slip
- Corrosion resistance
- Low maintenance
- Easy to clean
- Low magnetic permeability
- Anti-static
- Light-weight

aalco have it all!

Also in the **Aalco** treadplate range - 5 Bar Treadplate and TripleGrip in Aluminium.
Also available from stock is Stainless Steel Treadplate in thicknesses 3 to 6mm.
