Your first choice supplier
for all your metal needs

Aalco are proud to announce immediate stock availability of ALPOLIC™ NC/A1 panels

The world's first A1 fire-rated
Aluminium Panel with geo mineral core.

Why ALPOLIC™ NC/A1?

- A1 fire classification - highest safety standard
- Non-combustible geo mineral core
- Proven BS8414 fire test performance
- LUMIFLON FEVE coating system
- Almost 100% recyclable
- BBA approved and CWCT tested, ideal for remediation projects

Express service:

ALPOLIC™ high-quality aluminium panels are now available immediately from stock in selected formats and colours from your local Aalco service centre.

This allows you to get the products you need quickly, without long lead times or the need to hold your own inventory.

Enjoy maximum flexibility and respond instantly to short-notice projects or unexpected demands.

There are 3 ways to access ALPOLIC™:

- 1. Stock Service:** Five popular A1 colours available immediately from Aalco Metals service centres nationwide.
- 2. Express Service:** A2/FR materials available from German stock with fast delivery.
- 3. Custom Production:** 150m² minimum order for 25 standard classic colours in A2/FR.

IMMEDIATE AVAILABILITY | NATIONWIDE COVERAGE | A1 FIRE-RATED EXCELLENCE
