

Providing service to the
Road Transport Industry

aalco[®]

The UK's largest independent
multi-metals stockholder

Delivering Customer Service, Investing in Capability

The Aalco stock of products for the Road Transport Industry is expanding rapidly, making Aalco the fastest growing supplier to this sector. Whatever you require: a single length of aluminium extrusion; flooring in aluminium, stainless, wood or laminate; GRP sheet; Dropside systems, through to complete body kits – Aalco can supply quickly and efficiently. Please call your local service centre for information, advice, prices and delivery times.

Aalco is the UK's largest independent multi-metals stockholder. Customers from every sector of UK manufacturing and engineering industry, whether small local businesses or large multinational corporations, benefit from a cost-effective single source for all their metals requirements:

- An inventory that includes aluminium, stainless steel, copper, brass, bronze in all semi-finished forms
- Comprehensive processing services providing items cut and/or finished to customer requirements
- Eighteen locations bringing local service to every corner of the UK
- Ongoing investment in technology and logistics to ensure on-time delivery

No order is too large or too small and Aalco offers a responsive and competitive service for supplying anything from single item orders to major JIT contracts, tailoring this service to the individual needs.

Whatever your requirement, in whatever quantity, your local Aalco service centre is ready and willing to satisfy your needs. For a quotation, for further information, more extensive technical information, advice on product selection or to place an order, please contact your local Aalco service centre or refer to the web site:

The information contained herein is based on our present knowledge and experience and is given in good faith. However, no liability will be accepted by the Company in respect of any action taken by any third party in reliance thereon.

As the products detailed herein may be used for a wide variety of purposes and as the Company has no control over their use, the Company specifically excludes all conditions or warranties expressed or implied by statute or otherwise as to dimensions, properties and/or their fitness for any particular purpose. Any advice given by the Company to any third party is given for that party's assistance only and without any liability on the part of the Company. Any contract between the Company and a customer will be subject to the Company's Conditions of Sale. The extent of the Company's liabilities to any customer is clearly set out in those Conditions; a copy of which is available on request.

WEIGHTS

All weights shown in this publication are for guidance only. They are calculated using nominal dimensions and scientifically recognised densities. Please note that in practice, the actual weight can vary significantly from the theoretical weight due to variations in manufacturing tolerances and compositions.

Phenolic Mesh Faced Plywood with a slip-resistant surface

FL-BD18

Our phenolic mesh faced plywood features quality face veneers in hardwood of consistent species and grade.

As with the film-faced plywood, the veneers are bonded with phenolic 'weather and boilproof' glue lines throughout. The mesh face is produced with a heavier weight of phenolic film pressed with a mesh platen to create a slip-resistant surface.

Size Range

Size	Kg/M
2440 x 1220 x 12mm (220gm/m ²)	24.8
2440 x 1220 x 15mm (220gm/m ²)	31.0
2440 x 1220 x 18mm (220gm/m ²)	37.2
2440 x 1220 x 18mm (220gm/m ²)	38.2
2440 x 1220 x 21mm (220gm/m ²)	43.0

BENEFITS

Slip Resistance

Regular mesh pattern, 240 g/sm, film face provides slip resistance and a hard-wearing surface.

Predictable Performance

Quality control in selection of materials and manufacture ensures consistent performance.

Stability

The high temperature pressing of film and veneer, together with the thick film face gives long life and wear resistance.

Film Faced Reverse

The smooth film face on the reverse provides protection from damp environments.

GUIDANCE FOR INSTALLATION

Resealing of Cut or Drilled Areas

Our phenolic mesh faced plywoods are edge sealed at the factory. To obtain long life, all cut edges and drilled holes must be sealed before fixing. Water entering unsealed areas can cause localised swelling and reduce the service life of the plywood.

Fixings

Galvanised or stainless steel fixings will resist corrosion and unsightly damage to the board.

Mechanical Support

Adequate mechanical support will prevent excessive flexing of the board in service and reduce the possibility of fracturing the phenolic coating.

Regular Maintenance

The boards require minimal maintenance in normal use. However, removal of any build up of dirt and algae on the mesh surface will prevent reduction of slip resistance.

EGL Laminate

Edge Glued Laminate that with care can be crosscut and drilled to suit almost any size of floor.

- **Outers** – Keruing or Kapur for hardness
- **Inners** – Sepetir or mixed red hardwood for rigidity and lighter weight

Profile: Machined to half lap pattern with 'crusher bead' to allow expansion without distortion

Width: 305mm face / 319mm overall

Thicknesses: 22mm & 28mm

Lengths: Up to 45ft

Standard lengths (feet): 20, 25, 26, 28, 30, 45

Weight per foot: 22mm – 1.35kg / 28mm 1.9kg

Keruing Half Lap Planking

- 150mm wide in two thicknesses – 22mm and 28mm
- Available in lengths from 16ft to 26ft
- Weight per linear metre is 3.2kg for the 22mm thick and 4.06kg for the 28mm thick

Parabond 600 Sealant

GRP Roof Coil

2550mm wide x 1.3mm thick
Available in Opal or Blue. 42 metre long coils that can be cut to any length then recoiled and packed for easy transportation.

Aluminium Roof Coil

2550mm wide x 0.8mm thick.
Available in full coil and cut to any length specified, then recoiled for easy transport and handling.

GRP flat and corrugated panels are produced on modern continuous lamination lines. The main ingredients are high quality polyester resins and glass fibre reinforcements that provide high mechanical strength properties to the product.

Double-Sided Tape

DS1619

White, high bond strength DS Tape for a wide range of applications. Bonds well to metals, plastics, etc.

Technical specification

Product	Orthophtalic polyester resin and fibre glass
Fibre glass content	25 - 30%
Colour	Milk white
Light transmitted	Approx. 50%
Standard surface	Smooth / Smooth Smooth / Rough
Thickness	1.3± 0.19mm
Density	1.4-1.45 g/cm ³
Service temperature	-40°C + 120°C
Tensile strength	> 50Mpa
Bending strength	80-90 Mpa
Modulus of elasticity	6000/7000 Mpa
Elongation of break	2%
Thermal lineal expansion coefficient	2.7 - 10 ⁻⁵ cm/cm°C
Barkol hardness	>40 barkol
Water absorption	0.2%
Heat transmission coefficient	5 Kcal/m h°C
Self-ignition temperature	480°C
Biological resistance	Perfect against micro-organisms, algae, mildew and fungus
Resistance to corrosion	Good resistance to general corrosion of chemical agents and sea water

Dimensional tolerance

Unit weight	±10%
Average thickness	±15%
Width	±1%
Length	±1%

Detaflex 4000

Description

Detaflex 4000 is a high modulus, fast vulcanising, elastic surpaintable, one component polyurethane sealant for sealing and bonding in the automotive and truck industry. WRAS approved.

Properties -Vulcanized sealant

Shore A Hardness (ISO 868)	40
Maximal joint distortion	25%
Modulus at 100% elongation (ISO8340)	0.38 N/mm ²
Elongation at break (ISO8339)	680%
Temperature resistance	-40°C and +90°C

Detaflex 4000 has a good resistance against high and low temperatures -40°C to + 90°C. Complies with container "Butter Test" and approved to BS5929:Part3:1984.

Joint Measures

Joint width	Joint depth	Allowed difference
3-4mm	4-5mm	1mm
6mm	6mm	1mm
8mm	6mm	1mm
10mm	8mm	2mm
15mm	10mm	2mm
20mm	12mm	2mm
25mm	15mm	2mm

Processing temperature

Between +5°C up and +40°C

Surfaces

All surfaces must be dry, clean and free from dust and grease. When necessary, degrease with Top Cleaner, MEK, alcohol or ethanol. If necessary, use primer. It is recommended that adhesion tests are carried out to determine the suitability of the product for its application. When in doubt, contact the technical support service.

Available colours

White, grey and black

Precautions

Contains Isocyanate. See information supplied by the manufacturer. Safety data sheet available for professional use on request. S23 Do not breathe vapour.

Parabond 600

Description

A high quality, fast curing universal adhesive sealant based on MS polymer with very high initial strength. Perfect for bonding and sealing of most materials on nearly all surfaces (porous or non-porous) in the automotive sector. Flexible adhesion to most common materials including wood, PVC, glass, mirrors, aluminium, stainless steel, copper.

Characteristics

- High initial adhesion (high track) even without the need for clamping
- Fast build up of internal strength
- Excellent adhesion without primer, even on slightly damp surfaces
- Free of solvents and isocyanates
- The product is paintable
- Finished product keeps exceptional elasticity for extended period of time
- Does not corrode metals
- Can be applied indoors or outdoors
- High weathering and UV resistance
- Fungal resistant
- Guarantees exceptional strength after curing, for an elastic adhesive the force at break is exceptional : 18kg/cm²

Packaging and colours

25 cartridges of 290ml per box
Available in white, grey, black, dark brown and beige

Pre-Bowed Aluminium Roof Sticks

Material: Aluminium
Weight: 0.777 kg/meter
Availability: 2500mm long with 25mm rise, ±5mm and is supplied flanges up or down.

TH2

Wt. 0.777 kg/m

Steel Top Hat Roof Sticks

Material: 1.2mm Galvanised Mild Steel
Weight: 1.12kg/meter
Availability: 2500mm long with 25mm rise, ±5mm and is supplied flanges up or down.

GRS01 (Steel)

Wt. 1.2 kg/m

Steel Bowler Hat Roof Sticks

Material: 0.9mm Galvanised Mild Steel
Weight: 0.78kg/meter
Availability: 2500mm long with 25mm rise, ±5mm and is supplied flanges up.

BH01 (Steel)

Wt. 0.78 kg/m

Roofsticks will normally be supplied pre-bowed with legs on inside radius
 Can also be supplied pre-bowed with legs on outside of radius

The panels fulfil the specifications of NF Standard NF T 57-950-1

Tolerances: Length 0.1% (minimum 5m) / Width 3mm / Thickness: 1mm / Diagonal difference: 6mm

NAPS Range

Lightweight polypropylene honeycomb core coated on both sides with glassfibre reinforced polyester resin.

Advantages:

Strong lightweight panel. Excellent resistance to humidity in external uses.

Types / Glass reinforcement:

NA45L: 900g/m²

NAPS: 900 g/m²

NAP6: 1200g/m²

NAP7: 1480 g/m²

Standard height: 2500mm

Standard Length: Approximately 13550 mm

Maximum height: 3150mm

(NA45L: Maximum height 2440mm)

Special sizes: On request

Thicknesses and weights

Thickness mm	14	17	20	25	30
Weight kg/m ² NA5L (lightened issue)	4.2	4.4	4.5	4.8	5.1
Weight kg/m ² NAPS	5.8	6.0	6.2	6.5	6.8
Weight kg/m ² NAP6	7.7	7.9	8.1	8.1	8.7
Weight kg/m ² NAP7	8.3	8.5	8.7	8.7	9.3
Coefficient of insulation w/m ² /K (NAPS)	5.03	4.37	3.66	2.87	2.37

Custom-made:

We can provide specific panels according to drawings and also coloured panels. We can also protectively film the panels, make special cuts according to drawing, supply the panels with peel ply, anti-slipping floors, plus some inserts (aluminium, steel, tubes)

Applications: This lightweight panel is particularly adapted for lightweight vehicle boxes.

Aalco stock of NAPS Panels

Thickness (mm)	Length (mm)	Width (mm)	Weight kg
14	2438	2440	39.9
14	6096	2438	99.7

GRP Liner Panels

These lightweight gel-coated GRP Liner Panels are used in a range of applications including refrigerated vehicles, camper vans and leisure vehicles.

Aalco stock of GRP Liner Panels

Thickness (mm)	Length (mm)	Width (mm)	Weight kg
4	2438	2440	34
4	6096	2438	85

ISM Range

Polyurethane foam lightweight panel reinforced with internal strengthening membranes.

Advantages:

Internal cross strengthening glassfibre membranes prevents detachment of composite coats. Good bending strength.

Types / Glass reinforcement:

ISML: 1500 g/m²

ISMC: 1950 g/m²

ISM C3: 2230 g/m²

Standard height: 2500 mm

Maximum height: 3150 mm

Standard length: up to 13550 mm

Special sizes: On request

Custom-made:

We can provide specific panels according to drawings and also coloured panels. We can also apply protective film to the panels and make special cuts according to drawings.

Applications:

This lightweight and strong panel is particularly adapted to lightweight vehicles and has insulating properties.

Thicknesses and weights

Thickness mm	14	17	20	25	30
Weight kg/m ² ISMA	5.3	5.5	5.6	5.8	6.0
Weight kg/m ² ISML	5.9	6.1	6.2	6.4	6.6

Weight kg/m ² ISMC3	7.4	7.5	7.5	7.8	8.0
Coefficient of insulation w/m ² /K (ISMC)	2.83	2.20	1.80	1.46	1.12

ISS

Lightweight panel with polyurethane foam core.

Applications

Insulated bodyworks, isothermal and refrigerated containers.

Types / Glass reinforcement:

ISS: 1480 g/m²

ISS2: 1780 g/m²

ISS3: 2080 g/m²

ISS4: 2680 g/m²

Standard height: 2550mm

Maximum height: 3150mm

Standard length: up to 13550mm

Special sizes: On request

Polyurethane-foam density:

Standard 40 kg/m³

Other density: On request

Thicknesses and weights

Thickness mm	25	30	40	50	80	100	120
Weight kg/m ² ISS	7.0	7.2	7.6	8.0	9.2	10.0	10.8

Weight kg/m ² ISS4	8.7	8.9	9.3	9.7	10.9	11.7	12.5
Coefficient of insulation w/m ² /k (ISS)	1.25	1.01	0.74	0.58	0.35	0.26	0.23

ISP

Polyurethane foam panel with 4mm plywood sheets on both sides for an optimal stiffness and a stronger shock resistance.

Thickness mm	25	30	40	50	80	100	120
Weight kg/m ² ISP	10.7	11.0	11.5	12.0	13.5	14.5	15.5
Weight kg/m ² ISP3	11.1	11.4	11.9	12.4	13.9	14.9	15.9
Weight kg/m ² ISP4	11.6	11.9	12.4	12.9	14.4	15.4	16.4
Weight kg/m ² ISP5	12.4	12.7	13.2	13.7	15.2	16.2	17.2
Coefficient of insulation w/m ² /k (ISP)	1.65	1.26	0.86	0.65	0.38	0.30	0.24

Applications

Insulated bodyworks, isothermal and refrigerated containers.

Types / Glass reinforcement:

ISP: 900 g/m²

ISP3: 1050 g/m²

ISS4: 1480 g/m²

ISS5: 2080 g/m²

Standard height: 2500mm

Maximum height: 3150mm

Standard length: up to 13550mm

Special sizes: On request

Polyurethane-foam density:

Standard 40 kg/m³

Other density: On request

Custom-made

The ISS and ISP panels can be produced according to your specifications.

Examples:

Floor panels with wood or metal reinforcements. Insulated bulkhead panels with wood or metal reinforcements for refrigerator fastening. Insulated roof panels with, on request, stiffeners for the fastening of equipment, or with tubes for electrical wiring.

The panels fulfil the specifications of NF Standard NF T 57-950-1

Tolerances: Length 0.1% (minimum 5m) / Width 3mm / Thickness: 1mm / Diagonal difference: 6mm

PER range

PET foam coated on both sides with glassfibre polyester resin.

Thicknesses and weights

Thickness mm	14	17	20	25	30
Weight kg/m ² ISS	4.6	4.8	5.1	5.5	5.9
Coefficient of insulation w/m ² /k (ISS)	3.40	2.70	2.25	1.70	1.44

Advantages

Good resistance to compression.

Types / Glass reinforcement:

PER: 925 g/m²

Standard height: 2440mm

Maximum height: 3150mm

Standard length: up to 13550mm

Special sizes: On request

Custom-made:

We can paint, protectively film or cut the panels according to your drawings.

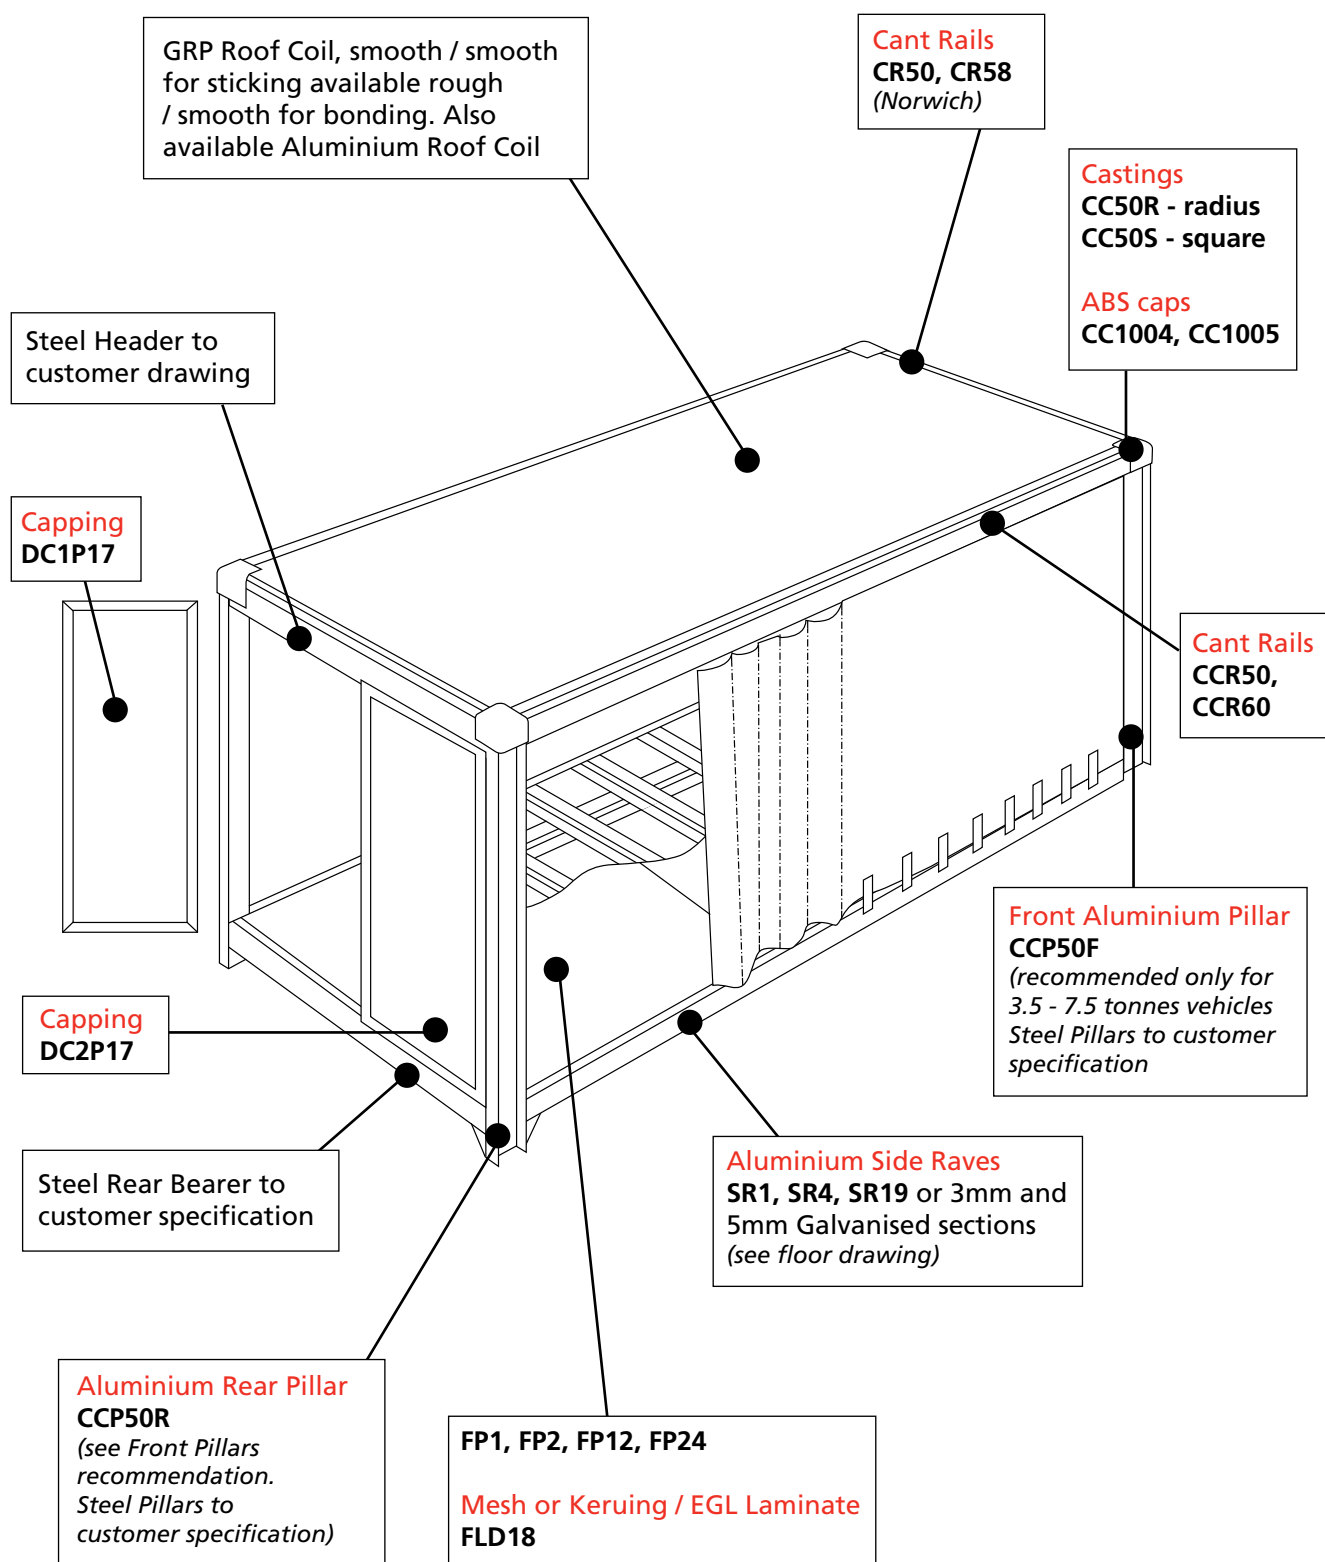

Applications

Lightweight vehicles.

N: Aluminium Box Body

0: Curtainsider Body

P: Innosoft B570 & Innoprotect B580

Rust and corrosion removal, cleaning and polishing on all types of metal.

Although Innosoft B570 was originally developed for stainless steel it has become apparent that it also gives good results on other metals like copper, aluminium and even plain steels. Common corrosion pits on aluminium are also effectively removed using this product.

It is a white viscous liquid based on organic acids and surface active agents and does not contain abrasives. It is suitable for the intensive cleaning of contaminated surfaces like flash rust and rusty areas, also known as 'tea-stains'. It is not a pickling agent because it does not attack the metal. It is therefore non-aggressive for metals but very effective on oxides and dirt.

Innoprotect B580 completely removes any residues left after the use of Innosoft B570 and passivates the surface which helps to prevent further corrosion.

Due to the deep-cleaning characteristics of Innosoft B570, the danger of 'under-deposit corrosion' of stainless steel is also reduced. This form of corrosion occurs under deposits because oxygen access is limited. This is particularly important in Chloride environments such as marine applications. Ground or polished surfaces are also more susceptible to this phenomenon.

Instructions for using Innosoft B570

Innosoft B570 is a white viscous liquid with an acidic pH of 3 containing organic acids and surface-active agents and is free from abrasive particles.

Innosoft B570 should first be well shaken and then applied undiluted using a damp sponge or pad. For ground or polished finishes, the product should be applied in the same direction as the brushing, grinding, polishing or abrading.

The loosened dirt and or oxide might cause light scratching, particularly on polished surfaces and this should therefore be carefully removed with water or a damp cloth. In this case only light pressure should be used in order to prevent any dirt becoming lodged in surface discontinuities. It is preferable to follow up with use of the basic cleaner Innoprotect B580 which as well as being neutral, also leaves a passive layer minimising the danger of any subsequent corrosion.

It is recommended that waterproof gloves are worn whilst using the product. A Material Safety Data Sheet in line with 1907/2006/EC article 31 is available on request.

Instructions for using Innoprotect B580

This neutral (pH 6.5) and mild cleaner can successfully be used in combination with Innosoft B570. As well as its cleaning action in removing the loosened oxides and contaminants, this product will also passivate the surface to minimise further corrosion. It is also suitable for the everyday cleaning of lightly soiled surfaces that have previously been treated with Innosoft B570.

Dilution

Dilute 400ml in 1000ml of cold water.

Aalco Kits

Kits are available from Aalco comprising the following contents

Product	500ml Kit	250ml Kit	100ml Kit
Innosoft B570	500ml	250ml	100ml
Innoprotect B580	500ml	250ml	100ml
Application Sponge	1	1	1
